

Marco mobile lift table/lift trolley MML

Marco MML is an all-in-one load transporter and worktable.

A mobile lift table, which can be used for the transportation and handling of goods or simply as a workbench for assembly, stacking or machine feeding operations.

For all types of industry in production, storage, distribution and office.

The MML lift trolley needs no power supply. The lifting movement is activated with a foot pedal and the lowering is controlled with a handle. This allows the operator to select the most ergonomic working position.

MML lift trolley is available with lifting capacities 150, 300, 350 and 500 kg.
